-

New Features

New User Interface

- Workflow Design Wizard
- Guided Designer Navigation Bar
- Form, Workflow and Step Settings Wizards
- Search

Applications are now called **Projects!**

Designer Enhancements

- Step Assignment to Email replaces Anonymous Task
- Digital Signatures available for steps assigned to Email*
- Form Style improvements (new layouts, custom fonts, custom JS)
- Improved template validation.
- Ability to disable task notifications
- Docuware Connector*

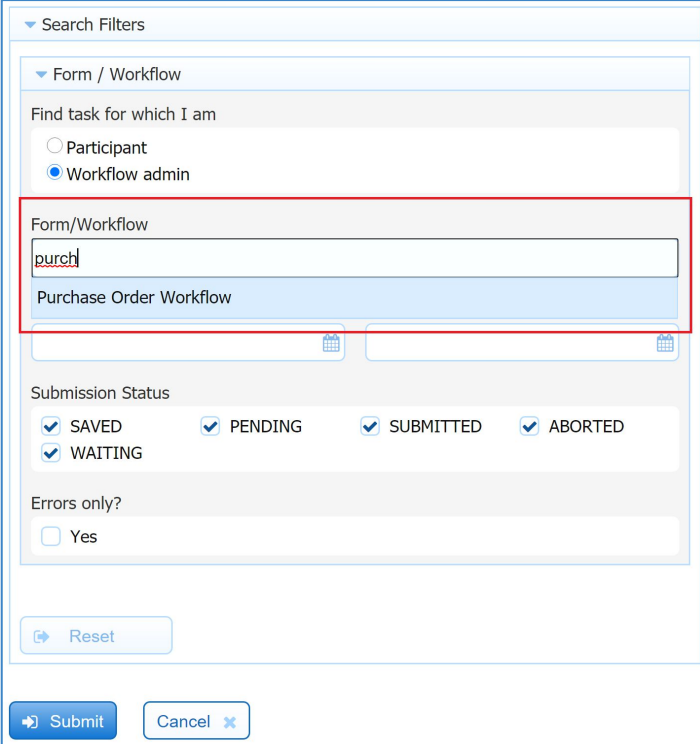

*Designing Forms/Workflows is **easier**
and more **efficient!***

A screenshot of a digital signature verification form titled "PLEASE VERIFY YOUR INFORMATION AND SIGNATURE". The form contains the following fields and elements:

- Email:** A text input field containing "test@frevvo.com".
- First Name:** A text input field containing "Odette".
- Last Name:** A text input field containing "Williams".
- Signature:** A large rectangular area containing a handwritten signature in black ink. A small blue "X" is visible on the left side of the signature area.
- Buttons:** At the bottom of the form, there are three buttons: "Clear" (with a trash icon), "Cancel" (with an "X" icon), and "Verify & Sign" (with a checkmark icon).

Other Features

- Expanded multi-language support
- Refresh Searchable Fields for any form or workflow
- Enhanced Task List Search by Participant or Admin & form/workflow selector
- Changes to Task Boundaries
 - Step Assignments define task boundaries - no longer can you accidentally approve your own request!
- New PDF Snapshot Generator - uses chromium browser to render snapshot*

Admin Features

1. Built-in Admin for non-default Security Managers
2. Changes to Password Management and CSV User Uploads
3. Ability to set a Default Space
4. Expanded access to operational reports
5. Manage Logged in User Sessions

Active Processes

Features Retired

- IE11 No longer supported
- ImageSilo/Papervision integration removed. Customers using this feature should contact us to discuss other integration options.
- The box connector is no longer supported by frevvo

Good to Know

New versions of the database connector and filesystem connector that are compatible with JDK 11 (11.0.2) - OpenJDK were released on 9/12/19.

Upgraded to Tomcat v9.0.36 with attribute `sameSiteCookies=none` for compatibility with Chrome v80 browser upgrade and to address ghostcat security vulnerability.
